- CR True Ceramic

Automotive Limited Warranty: 7-Year

- HP True Bronze
 - NR True Smoke
- NR True Black
 - AS 4Mil Charcoal

The warranty coverage for the film purchased begins 90 days after the date of installation – concerns before the 90 days can typically be handled by the installing dealer as they are most often installation related. Coverage is extended to the original purchaser only and is not transferable. Express Window Films warrants the window film only and does not warrant against improper application of the films, which includes contamination, poor installation technique, improper squeegeeing, trimming and/or measuring. Express Window Film’s warranty liability is limited to the replacement and re-installation labor of only such quantity of film found to be defective under this warranty. There are no warranties which extend beyond that which is described above. This limited warranty is made in lieu of all warranties expressed or implied. This warranty applies to the Express window films listed below and gives you specific legal rights which may vary from state to state.

Master Roll Numbers Are Required

Every roll of Express branded window film is encoded with a unique master roll number, identifying it as an Express product. The master roll numbers for the film(s) installed on your vehicle must be properly recorded on this warranty certificate by the installing dealer or no warranty coverage will be provided.

Illegal Tint Is Not Covered

No warranty coverage is provided for any installation that does not comply with applicable state laws. Please check your state law prior to filing a claim.

Warranty Claim Documents

In the event of a product failure covered under the terms of this warranty, please contact the original installing dealer. If the original installing dealer is not accessible, you can initiate a warranty claim directly with Express Window Films by sending copies of your warranty documents to the EWF Warranty Claims Department. Upon receipt, Express Window Films will contact the original installing dealer and arrange for the removal and application of new film, as called for in this product warranty. **Warranty documents required to submit a claim include this completed warranty certificate and your bill-of-sale from the original installing dealer.**

Important: Some dealers may use only this warranty certificate as their bill-of-sale document. If the dealer is properly identified and the warranty certificate is complete, a bill-of-sale is not required to submit a warranty claim. Master roll numbers are required to provide warranty coverage.

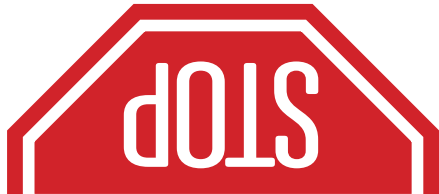

Submitting Warranty Claims

You may submit a warranty claim via email or USPS mail, although email claims will process faster.

Why All the Fuss?

During installation, a trace of soapy solution always gets trapped behind the window film and needs a short period of time to completely dry before the adhesive can thoroughly bond to the glass. Dry time is determined by weather conditions and the type of window film installed. This is why your dealer has suggested the number of days to not roll down or clean your windows.

Shortly after installation completion, a slight moisture-haze may appear and it's also possible small water bubbles may collect. Do not worry this is normal – trapped moisture will always dry and disappear. However, if bubbles become excessive or persist, please do not attempt to pop or squeeze them out yourself. Return to your dealer for service.

What to Expect

Cleaning Cloths

To minimize the risk of scratch damage to the films surface, always use non-abrasive materials and cloths that are free from contaminants.

Cleaning Solutions

A mild soapy water solution works best. A few drops of liquid dish soap and tap water mixed in a spray bottle works very well, although most mild glass cleaning solutions are fine.

Warning

All Express Window Films come standard with a durable scratch resistant coating, although you should always use a clean, non-abrasive cloth for cleaning and drying. To extend the life of your window film, please consider the following care tips.

- 1 Don't roll down your windows for days after installation.
- 2 Don't clean your new window film for days after installation.
